

MELINA SANCHEZ

The University of Texas at Austin
Class of 2019

SOMEDAY, THIS SCIENTIST MIGHT SAVE YOUR LIFE.

Meet the girl who will cure AIDS or invent a new solar fuel cell – she hasn't decided yet. Today, Melina's favorite class is science, largely because of the inspiring approach her teacher learned in the UTeach program at The University of Texas at Austin. UTeach has so successfully reinvented how we train science instructors that more than 50 universities around the country have applied to replicate it. Because if Melina is to be a leader in the future, she needs a great teacher today.

All across Texas, public universities are working to protect and improve your health, safety and quality of life – your tomorrow.
