

**DR. SCOTT TINKER**

Director, Bureau of Economic Geology  
The University of Texas at Austin

## HE TOLD CO<sub>2</sub> EMISSIONS WHERE THEY COULD GO.

Meet the professor who's putting carbon dioxide from power plants safely underground rather than into our air. Dr. Tinker and his team at UT Austin are pioneering discoveries in carbon sequestration, one of several promising new technologies helping to find global solutions that work for our energy needs *and* for the environment.

All across Texas, public universities are working to protect and improve your health, safety and quality of life – your tomorrow.
